

Wingbats Children's Health Policy

First Aid, illnesses, Infection Control & Accidents

At Wingbats we will promote the good health, including oral health, of the children we look after. We will deal promptly and effectively with any illnesses, accidents or injuries that occur while children are in our care. We take all practical steps to keep staff and children safe by taking appropriate action if children are ill or infectious. This keeps children and staff safe from communicable diseases.

All parents or carers must complete the **Medical Form** when their child joins the Club, requesting permission for emergency medical treatment for their child in the event of a serious accident or illness.

We will record any accidents or illnesses, together with any treatment given, on an **Incident Record** or **Accident Record** sheet as appropriate, which the parent or carer will be given when they collect the child.

Wingbats cannot accept children who are ill. If any children are ill when they first arrive at the Club we will immediately notify their parents or carers to come and collect them. Any children who have been ill should not return to the Club until they have fully recovered, or until after the minimum exclusion period has expired.

First aid

The Club's designated First Aiders are Georgie Fagan, Tasha Baron & Sarah Pettengell. The designated First Aiders have a current first aid certificate and have attended a 12 hour paediatric first aid course, which complies with the requirements of Annex A of the EYFS. First aid training will be renewed every three years.

To ensure that there is a qualified first aider present and available at all times when the Club is running, two other members of staff will also receive first aid training. We will take into account the number of children and layout of the premises to ensure that first aiders are able to respond quickly to any incident. Other staff who do not hold Paediatric First Aid 12 hour training will be available to ensure timely and effective first aid response to any incident requiring attention.

The location of the first aid box and a list of qualified first aiders are clearly displayed at the Club. The designated First Aider regularly checks the contents of the first aid box to ensure that they are up to date, appropriate for children and comply with the Health and Safety (First Aid) Regulations 1981.

Procedure for a minor injury or illness

The first aider at the session will decide upon the appropriate action to take if a child becomes ill or suffers a minor injury.

- If a child becomes ill during a session, the parent or carer will be asked to collect the child as soon as possible. This includes having a temperature over 38.0C (fever). The child will be kept comfortable and will be closely supervised while awaiting collection.
- If a child complains of illness which does not impair their overall wellbeing, the child will be monitored for the rest of the session and the parent or carer will be notified when the child is collected
- If a child suffers a minor injury, first aid will be administered and the child will be monitored for the remainder of the session. If necessary, the child's parent will be asked to collect the child as soon as possible

Procedure for a major injury or serious illness

In the event of a child becoming seriously ill or suffering a major injury, the first aider at the session will decide whether the child needs to go straight to hospital or whether it is safe to wait for their parent or carer to arrive.

- If the child needs to go straight to hospital, we will call an ambulance and a member of staff will go to the hospital with the child. The staff member will take the child's **Medical Form** with them and will consent to any necessary treatment (as approved by the parents on the **Medical Form**)
- We will contact the child's parents or carers with all urgency, and if they are unavailable we will call the other emergency contacts that we have on file for the child
- After a major incident the manager and staff will review the events and consider whether any changes need to be made to the Club's policies or procedures
- We will notify Ofsted and child protection agencies in the event of any serious accident or injury to a child in our care as soon as reasonably possible and within 14 days at the latest
- We will notify HSE under RIDDOR in the case of a death or major injury on the premises (e.g. broken limb, amputation, dislocation, etc – see the HSE website for a full list of reportable injuries).

Infection Control

Hand hygiene is one of the most important ways of controlling the spread of infections, especially those that children are especially susceptible to. We will ensure access to soap & warm water at all times, also hand gel is also available.

All children will be reminded to clean their hands after using the toilet, before eating and handling food and at other times necessary (such as messy activities).

Our setting is cleaned regularly and to a set schedule. We will take advice of the UKHSA health protection team should any outbreak of infection at our setting be noted.

Wingbats After School Club follows the advice set out in the UK Government guidance 'Health Protection in Children and Young People Settings' on the prevention of infection, including Covid-19.

Communicable diseases and conditions

If a case of head lice is found at the Club, the child's parents or carers will be discreetly informed when they collect the child. Other parents will be warned to check their own children for head lice, but care will be taken not to identify the child affected.

If an infectious or communicable disease is detected on the Club's premises, we will inform parents and carers as soon as possible.

If there is an incident of food poisoning affecting two or more children looked after at the Club the Manager will inform Ofsted as soon as possible and within 14 days at the latest.

If there is an outbreak of a notifiable disease at the Club, we will inform the local health protection unit, HSE under RIDDOR (if appropriate), and Ofsted.
