Year 1	Funny Faces and Fabulous Features		Cityscapes		Rain and Sunrays	
Year 2	Exploring Colours	Still Life	Flowers		Portraits and Poses	

At West Byfleet Infant School, we aim to deliver Art lessons that nurture children's creativity, curiosity, and imagination. We are committed to ensuring that every child has the opportunity to develop both creative and technical skills by producing their own artwork through observation, exploration, and the use of a wide range of techniques.

Children are introduced to a variety of artists and artistic styles, inspiring them to explore new ideas and approaches. They are given regular opportunities to practise, refine, and develop their skills, enabling them to create unique and personal pieces of art.

We encourage children to experiment confidently with materials, selecting the tools and techniques that best bring their ideas to life. They explore a broad range of media including paint, pencil, charcoal, ink, printing, malleable materials, natural objects, and paper.

Our curriculum also supports children in developing an understanding of how art reflects and shapes history, and how it contributes to culture, creativity, and the richness of the world around us.
