Year 2	<b>Let's Cook</b> Cooking and Nutrition		<b>Let's Build</b> Structures		<b>Let's Stitch</b> Textiles	<b>Let's Join</b> Push and Pull

At West Byfleet Infant School, our Design and Technology (DT) curriculum aims to develop children's confidence in researching, designing, making, and evaluating products for a practical purpose — all within a safe and supportive environment.

We provide plenty of opportunities for children to explore and experiment with a wide range of materials, helping them to understand their properties and how they can be used effectively. Through our DT lessons, we encourage children to think creatively and consider how they can be more eco-friendly in the products they design, promoting a growing awareness of environmental responsibility.

We also support children in developing an understanding of the importance of a healthy, balanced diet. As part of this, they are introduced to basic cooking skills and the principles of nutrition, laying the foundation for lifelong healthy habits.
